Comparison

✘ Old high pressure Sodiom lights

- Each lamp costs approximately \$160.00 plus labor
- An Approximate 14 month life span
- HPS Lighting produces excessive heat which will shorten the life span of the fixture

✔ New LED Retrofitting Lights

- The new LED fixtures have an approximate 30 year lifespan
- Less electricity consumption
- No Lamp Required
- No heat emitted from fixture

Out with the old, In with the New

Energy Efficiency recommendation :
